Can we reschedule? I'm involved in Animas river response as well. Swamped. Sorry

And thank you.

Subject: Comments on COPC selection protocol

I spoke to Dan this AM and it seems clear the situation on the Animas will prevent him from being able to participate in the call scheduled for 2:00 tomorrow.

Dan told me to do the best I could without him. In that regard, here is a revised draft of the memo to ERM where I have tried to deal with the issues that I had identified for discussion..

I hear you have been recruited to help with the Animas situation as well.

Will you be available to participate in the call scheduled for 2:00 tomorrow?

If you are tied up, I can confer with Scott and send these comments on behalf of EPA, with appropriate disclaimer.

On a related note, do you think either you or Dan will be available by Thurs for risk assessor call?

If not, I can alert Jennifer that call may need to be re-scheduled.
